

# Working Quietly

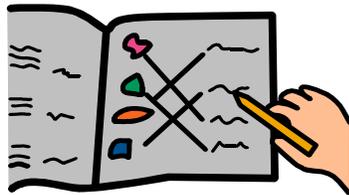

When I'm at school, I do a lot of work at my desk.

Quiet

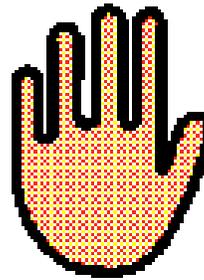

When I work at my desk, I need to work quietly. I need to sit and keep my thoughts in my head. When I talk out it disturbs others and they can not do their work.

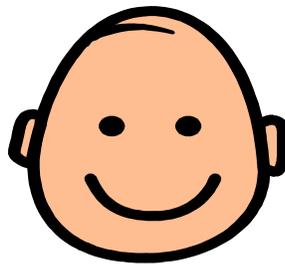

It is my job to keep doing all the work that I can finish until the timer stops or the teacher tells me to stop.

and

If I have a question or need help,  
I should raise my hand and wait at my  
desk. My teacher will help me when  
she can.

Working quietly at my desk is my job.  
When I am quiet and working my  
teacher is happy. My Mom and Dad  
will be happy too.
