

## Work Time and Break Time at School

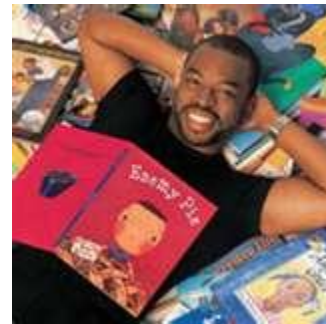

This is my school. My school has rules.  
All the kids at my school have to follow the  
rules.

At my school we have

Work time

and

Break time

**Work Time** is when the teacher gets to pick what I do. I am at school to learn. All kids go to school to learn.

### Work Time

Sit in my chair

Listen when the teacher talks

Walk in line with my class

Finish writing my paper

Raise my hand when I want to talk

Finish my independent work

Work with the teacher

When I finish my **Work time** I get **Break time!**

**Break time** is when I get to do what I want to do. I get to pick.

These are some things I might do at **break time**.

Break time choices

Listen to music

Play with a toy

Draw a picture

Talk to a friend

Play computer

Relax in the bean bag

Read a book

When I come to school I start with **work time**. This is the time to listen to the teacher. I might work with the teacher or go to another class like science or gym.

When this **work time** is over, I have **break time** again!

This is what my day might look like.

1. **Work time**
2. **Break time**
3. **Work time**
4. **Break time**

The faster I finish my work the more time I have to relax. If I take too long to finish my work there will be no time left for choices.

**No Finished Work** = ~~No Time for a Break~~

I will try to follow the rules at school and get my work finished so I have time for a break.

Hooray! I finished my work, now I get a break!
