

I Like To Draw

www.dinosaurparade.com

Drawing is cool.
Lots of kids like to draw!
I like to draw too!

I really like to draw bridges.

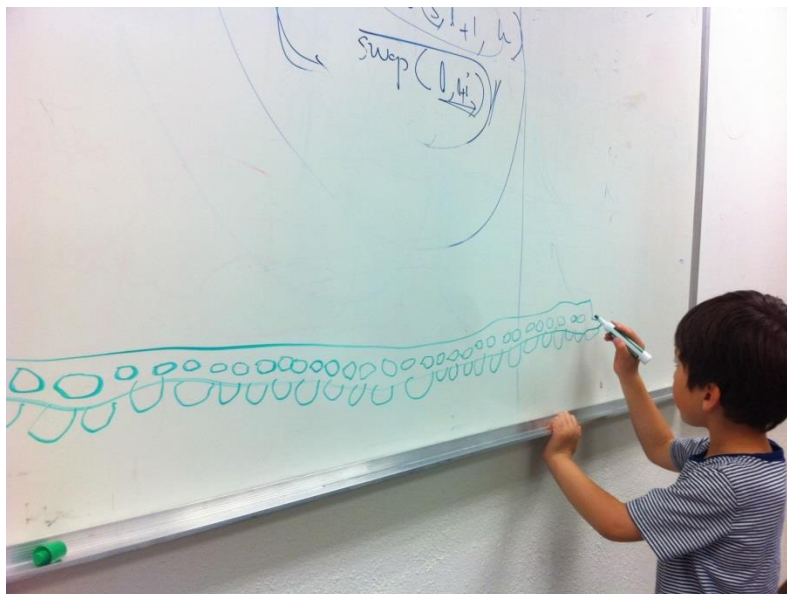

Drawing bridges is fun!

Sometimes I draw other things too.

Kids can draw on paper or a black board or a paint easel or even a big board on the wall.

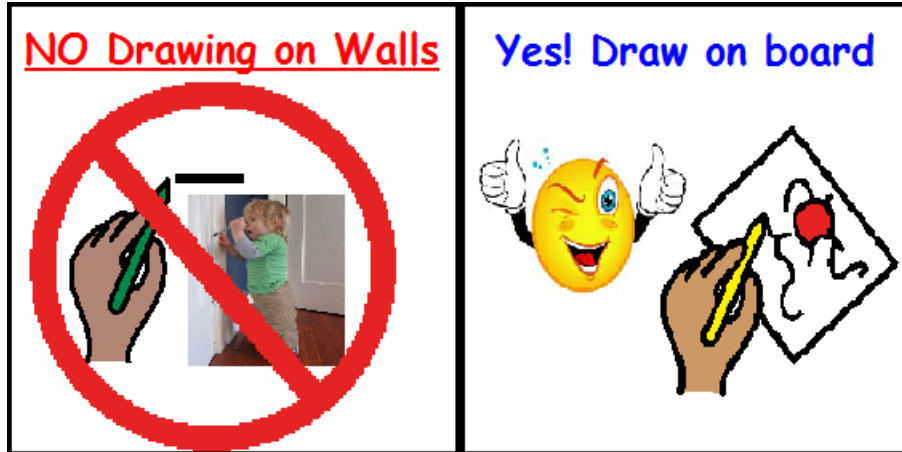

**But kids should try to remember to NEVER draw on walls!
It is not good for the wall!**

That is the RULE about drawing!

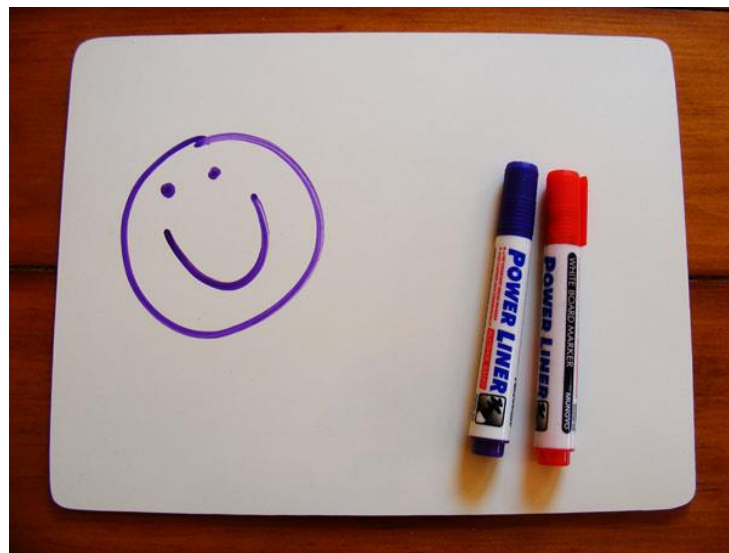

I can draw on all of the other things like paper, a chalk board or a special drawing board.

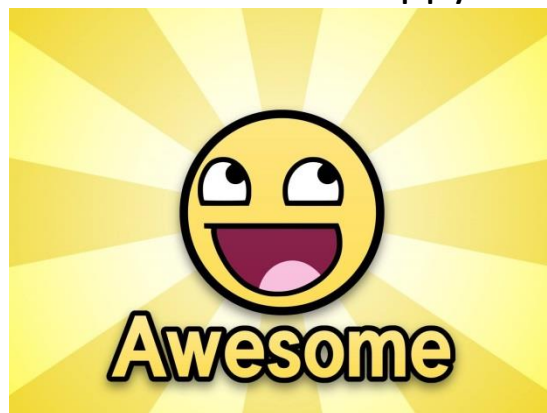

I can still draw my bridge. I can still draw whatever I want when I draw on my board or on my paper. That's what kids do.

When kids use paper or a special board to draw everyone is happy!

My Mommy will be happy when I draw on my special board.
That will make me happy too!!

The End.
