

Room 309 Home Schooling Instructions

So as you know, due to the extended suspension of classes, we are beginning Home School instruction this week.

For the next two weeks, I have provided a packet for all your subjects (Math, English, Social Studies, Science and Career Ed). This packet should be worked on daily for the next two weeks, and work saved for us to check and give you credit for your work.

Starting April 13th all Special Ed and Content Area teachers will have lessons online on our Friendship Academy website. These will be made up of downloadable and printable content, as well as video lessons presented by your teachers.

So as you know, not all of you are taking the same classes in Social Studies and Science, and all of you are at different levels in Reading and in Math. So I will do my best to communicate with you what online assignments you should be completing. The only classes that you all are taking are my Health and Career Ed classes.

What that means is that I will reach out to you next week and tell you what Social Studies and Science classes you should be working on individually, and what level of Math and English/Reading work you should be completing.

So please wait until the end of next week, before starting the work for the week of April 13th and 20th. The video content will most likely not be up until then, and I want to make sure all of you are doing the proper assignments at the correct level.

If you have any questions please contact me via my email at GGoerk@thewatsoninstitute-fa.org. We are setting up office hours, where we will be available to answer any questions that you have on home school, IEP, etc. Mine, for now, will be Tuesday and Thursday from 8:00-12:00, during that time I can call parents and students and answer any questions you have sent me via email, or through the schools answering service.
