

## Technology Education – Venture

I have set up accounts for each of you in EverFi to help make the class more interactive. This course is a simulation of starting a new business. I am able to track your progress for grading purposes. Hopefully, you will have fun while working through this simulation. The information for starting this project is listed below.

1. Click on the hyperlink for the site: <https://platform.everfi.net/registration/login>
2. Find your username in the list below:

Laniyah	laniyahgFA1
Heiziciah	heiziciahhFA2
Sally	sallysFA4
Dakota	dakotatFA5
Inaya	inayawFA6

3. Use the password you use to log-in to the school computer as your password. If you have forgotten your password, you may email me @ [csproull@thewatsoninstitute-fa.org](mailto:csproull@thewatsoninstitute-fa.org) and I will send it to you privately.
4. Click START and the program will begin. You will be given directions and the content is read aloud by the program.
5. For the week of April 13, you will complete Lesson 1.

### Learning Objectives

- Build a balanced budget including common budget elements
- Define and distinguish between variable and fixed expenses
- Identify sources of income and common types of payroll deductions
- Identify common types of taxes and explain how taxes impact income
