

Dear Families,

**Please complete, sign, and return the Emergency Care Form for the 2022-2023 School year.**

If your child uses an inhaler, EpiPen or other emergency medication, please complete *and have a doctor sign* the attached medication form before sending medications to school. Medications should be dropped off by an adult. Please do not send medications in to school with students.

You will receive a separate letter if there are immunizations that your student requires prior to the start of school.

We look forward to serving your students in the Health Office in the coming school year. We will offer health services throughout the school year for well and sick students. As a reminder, please keep your child at home if they are not feeling well. Students having a fever (temperature above 100), vomiting, or diarrhea within the last 24 hours may not attend school. Students with a sore throat, cough, or congestion should be screened for COVID before coming back to school. Parents and Guardians will be asked to come pick up any student being seen in the Health Office for any of these concerns.

Students may also be seen in the Health Office for accidents or injuries. Please keep in mind that any accident or injury that occurs outside of school cannot be treated in the Health Office at school. Parents or Guardians will be contacted to address these concerns outside of school if a student comes to school injured. Any accident or injury that occurs at school will be treated and guardians will be notified of treatment.

If your student receives medication at school, the medications are delivered to the school from the pharmacy and will be given as ordered. Please keep any home medications at home. Please contact the Health Office with any questions or concerns regarding your student's school medications.

We are looking forward to a happy, healthy, and successful school year. Please contact us with any questions or concerns.

Thank you,  
The Friendship Academy Nurses
